

AMIT KUMAR SAHU

Frontend Developer | React.js | Next.js | TypeScript

📞 63869-23401 | ✉️ sahuamit00786@gmail.com | linkedin.com/in/sahuamit00786 | github.com/sahuamit00786

PROFESSIONAL SUMMARY

Results-driven **Frontend Developer** with 2+ years of hands-on experience building **production-grade web applications** using **React.js, Next.js, and TypeScript**. Proven expertise in building scalable SaaS interfaces, converting complex UI/UX designs into pixel-perfect code, and optimizing Core Web Vitals. Experienced in REST API integration, component architecture, and delivering mobile-first, cross-browser-compatible applications. Capable of working independently in remote setups and collaborating seamlessly with backend and product teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR/SSG/ISR), TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, Material UI, Bootstrap

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL, Java, Python

Performance & SEO: Core Web Vitals optimization, Next.js Image/Font optimization, lazy loading, code splitting, SSR/SSG for SEO

Backend & APIs: Node.js, Express.js, RESTful API Integration, Socket.io, Firebase, Sequelize ORM

DevTools: Git, GitHub, Postman, Expo Go, Mapbox API, Razorpay/PayUMoney, Linux

PROFESSIONAL EXPERIENCE

Thrifty AI

Feb 2026 – Present

Full Stack Developer (React.js · Node.js · PostgreSQL · Python)

- Building full stack features using **React.js** on the frontend and **Node.js** on the backend, delivering end-to-end functionality across core product modules.
- Designing and managing **PostgreSQL** schemas, writing optimized queries and migrations to support scalable data operations.
- Leveraging **Python libraries** for data processing, automation, and backend utilities, integrating them into the existing Node.js service layer.
- Collaborating with cross-functional teams to ship responsive, production-grade interfaces and robust REST APIs in an Agile environment.

Nowgray IT Services Pvt Ltd. June 2024 – Feb 2026

Frontend Developer (React.js / Next.js)

- Architected and delivered scalable **Next.js** and **React.js** web applications with SSR and ISG strategies, achieving improved SEO scores and faster page load times across all modules.
- Built real-time internal dashboards using **React** and Socket.io, enabling live sales and operations data updates for business teams.
- Converted complex UI/UX designs into fully responsive interfaces using **Tailwind CSS** and **TypeScript**, ensuring cross-browser compatibility and mobile-first accessibility.
- Integrated **RESTful APIs** and managed frontend state with **Redux**, reducing re-render bottlenecks by 30% through memoization and code-splitting techniques.
- Collaborated closely with backend developers and product managers in an **Agile/Scrum** environment, consistently delivering features ahead of sprint deadlines.

Oikoshreem Infotech Pvt. Ltd

Jan 2023 – June 2024

Frontend Developer (React.js / MERN Stack)

- Built end-to-end responsive web applications using **React.js** and **TypeScript**, focused on geolocation-based logistics and secure payment workflows.
- Integrated **Mapbox API** into React components for real-time vehicle tracking and route visualization, improving delivery logistics accuracy by 25%.
- Implemented **Razorpay** payment gateway UI flows and webhook-driven status updates, streamlining subscription management for end users.
- Developed dynamic data visualization dashboards using **Chart.js** within React, enabling clients to explore complex reporting data intuitively.

MAJOR PROJECTS

Connexify React.js · Next.js · TypeScript · Node.js · MySQL · Socket.io

- Developed a unified **Lead Management SaaS Platform** with a Next.js web admin portal and React Native mobile app, supporting 100+ concurrent agents.

- Engineered a **real-time call synchronization** bridge using Socket.io and React state management, instantly updating lead statuses across dashboards.
- Built reusable **TypeScript** component library for RBAC-protected views, implementing nested permission logic across user hierarchies.
- Optimized Next.js rendering strategies (SSR + ISR) for data-heavy lead tables, maintaining **sub-second load times** over a 500k+ record dataset.
- Led a team of 3 junior developers, delivering the **Connexify MVP 2 weeks ahead** of the project deadline.

Enterprise Invoicing Application (SaaS)

Next.js · React · TypeScript · Redux · Express.js · MySQL

- Architected a **Multi-Company SaaS Invoicing System** using Next.js with isolated data environments per business entity on a single instance.
- Built a recurring billing engine frontend with **React** and **TypeScript**, rendering customizable invoice schedules and automated PDF dispatch flows.
- Developed real-time revenue analytics dashboards using **Chart.js** in React, visualizing receivables, pending payments, and growth trends.
- Integrated **REST APIs** for automated tax calculation and multi-currency support, enabling international billing for diverse clients.
- Leveraged **Next.js SEO features** (meta tags, Open Graph, structured data) to improve discoverability of the client-facing billing portal.

EDUCATION

A.P.J Abdul Kalam Technical University

2024

Bachelor of Technology in Computer Science – Lucknow, India

Rani Laxmi Bai Memorial School

2020

Intermediate (PCM) / High School Diploma – Lucknow, India

ACHIEVEMENTS & AWARDS

- **Hackathon Runner-Up:** Secured 2nd place at Galgotias Institute National Hackathon for building an innovative React + Next.js SaaS prototype in 24 hours.
- **Agile Leadership:** Led a team of 3 junior developers to deliver the Connexify MVP 2 weeks ahead of deadline in a fully remote Agile setup.
